Voter Registration

Voter Roll Rumor Mill

✗ Rumor: Non-citizens are allowed to register to vote and participate in elections.

✓ Reality: Non-citizens are not allowed to register to vote, and state law only allows qualified Alabama citizens to vote.

✗ Rumor: You are able to register to vote and vote in multiple places in Alabama.

✓ Reality: No. Alabama has a centralized voter registration database, where all voter records are maintained. If a voter registers or updates their registration, their voter record is updated. Regular maintenance is performed to ensure duplicate voter records do not exist.

✗ Rumor: Dead voters remain on the voter rolls.

✓ Reality: Alabama utilizes records from Alabama Department of Public Health, the Social Security Death Index and reports from other states and jurisdictions to remove voters that have been deceased in a timely manner. Deceased voters are not left on the voter rolls.

Voter Roll Rumor Mill

- ✗ Rumor: Alabama removes voters that do not deserve to be removed from the voter rolls.**
- ✓ Reality:** Alabama follows the National Voter Registration Act (NVRA) and other applicable federal and state laws to only remove voters from the voting rolls who are no longer qualified to vote in Alabama or under specific, legal circumstances, and at specific times afforded by state and federal law.
- ✗ Rumor: Someone may register to vote in my name.**
- ✓ Reality:** When a person registers to vote, they must provide identifying information like date of birth, address, driver's license number and/or the last 4 digits of their social security number. These identifiers are utilized in confirming the registrant's identity. The person signs the voter registration application under penalty of perjury.

Rumor: Persons can receive and return ballots on behalf of one or more voters.

Reality: By law, no person can receive or return a ballot on behalf of someone else. The only exception to this law is medical emergency absentee voting within the 5 days before the election.

Rumor: Absentee ballots are not counted unless a race is close.

Reality: All absentee ballots are processed for counting if the proper documentation is provided by the voter, regardless of the outcome of the election. Voters may visit alabamavotes.gov to check the status of their absentee application and ballot.

Rumor: Voting machines are connected to the internet and can communicate/be communicated with via modem and/or cellular technology.

Reality: Alabama's elections are secure and transparent. Our voting machines are not connected to any network, including cellular networks. Our voting machines do not have wireless chips, or any other piece of hardware to communicate or be communicated with. Our voting machines do not possess modem technology and cannot communicate or be communicated with by other devices.

Rumor: The voting tabulator was down and it did not scan my ballot. The poll workers made me put into an emergency bin in the tabulator. My vote won't count.

Reality: In the case that a voting tabulator is temporarily down, the polling official is provided strict protocols to follow. The voter will insert the ballot into a locked emergency ballot bin inside of the tabulator. Once the tabulator is fixed, the ballots in the emergency ballot bin are fed into the tabulator as any other ballot. All ballots are processed no matter what.
